Commission
Action:

October 11, 2016 - Recommended by the Austin Airport Advisory Commission on a 6-0 vote with Commissioners Legate, Sargent, McDaniel and Sepulveda absent.

Related Items:

MBE / WBE:

This contract is exempt from the City Code Chapter 2-9D Minority Owned and Women Owned Business Enterprise Procurement Program; therefore, no subcontracting goals were established.

Additional Backup Information

The contract will provide the purchase and installation of the American Disability Act (ADA) compliance keypads, barcode/passport readers, and associated software for the Austin-Bergstrom International Airport's (Airport) common use self-service kiosks.

IER kiosks have been in place since 2012 when the system was initially purchased through the competitive procurement process. There are currently 20 IER kiosk's being utilized throughout the Airport. These kiosks allow passengers to check in, print boarding passes, and bag tags from multiple airlines all on one common kiosk. IER, Inc. is the manufacturer of these kiosks and is the sole provider of the IER ADA compliance keypad, barcode/passport reader, and associated software for these kiosks.

This contract is needed in order to meet airport kiosk accessibility requirements for the ADA compliance standards deadline of December 12, 2016 as set by the Federal Department of Transportation.
